Italy Must Surrender the Captured Turks, Demand of Entire French Press

Storm Aroused by Seizure of Ottomans Aboard Neutral Vessel Gains in Intensity—Newspapers Will Not Listen to Arbitration Proposal Before Reparation Is Made.

[SPECIAL DESPATCH TO THE HERALD VIA COMMERCIAL CABLE COMPANY'S SYSTEM.]

HERALD BUREAU,
No. 49 AVENUE DE L'OPERA,
PARIS, Monday.

Instead of subsiding the storm raised by the Manouba incident is gaining in intensity. The most significant detail is the unanimity that reigns in France. There is really a new spirit abroad. The pin pricks of Germany have awakened a spirit of union before the aggressor and a determination to accept no further humiliation.

Party divisions are obliterated for the moment. All the newspapers, from the moderates to the extremists, from the royalist Gaulois to the Bonapartist Autorité, from the nationalist Eclair to the international Humanité, unite in demanding redress from Italy.

Release of Turks Demanded.

The Humanité, it is true, suggests that the matter be submitted to the Hague tribunal, but all other newspapers brush aside that proposal and insist that the first step, the one that is essential and pressing, is the release into the custody of the French authorities of the Turks who were seized on board the Manouba.

The Matin, which always models its tone on the government's view, says that France cannot and will not abandon its demand for their prompt liberation.

Another indication that this is the attitude to be adopted by the Cabinet is that the Petit Parisien, of which the proprietor, M. Jean Dupuy, is a member of the Poincaré Ministry, echoes the outcry for the release of the Turks, and expresses the conviction that Italy will not hesitate to effect this act of reparation.

The Gaulois says France cannot forsake those who were under the protection of her flag.

The Lanterne, usually at the pole of political opinion furthest removed from that held by the Gaulois, says the first duty of our government is to exact from Italy the release of the prisoners, that this detail must be regulated at once and all other details must give way to it.

Nation Supports Government.

The Bonapartist Autorité says no matter how grave may be the conflict the French government may rest assured that in insisting upon the release of the Turks it will be energetically supported by all parties.

Even the Excelsior, which prides itself upon avoiding participation in political polemics, says bluntly that the startling nature of the insult makes essential a prompt solution of the crisis by a complete reparation.

The Soleil, which opposes the republic on principle, unites with all France in expressing satisfaction with the firmness displayed by the French government in demanding the prompt liberation of the prisoners seized by means of a despatch that was more or less falsified.

The French press, in fact, is unanimous for once. The sole theme is the return of the prisoners at once. What is to be done with them afterward may be left for future discussion. This stipulation is the same in all the newspapers, no matter how much the form in which it is expressed may differ, the cautious Figaro agreeing on this point with the vituperative Libre Parole, which asks whether France after being blackmailed by the Wilhelmstrasse is to be insulted by the Consulta, adding:—"After we have been clawed by the panther are we to be kicked by the ass?"

ITALIAN NEWSPAPERS DEFEND GOVERNMENT

[SPECIAL DESPATCH TO THE HERALD VIA COMMERCIAL CABLE COMPANY'S SYSTEM.]

ROME, Monday.—The Popolo Romano today asserts that the Italian government could not give greater proof of its kindly sentiments toward friendly nations than it did in settling the Carthage incident so rapidly and by giving to the Manouba liberty to continue her voyage after disembarking the Turkish officers.

The Giornale advises that the matter be taken before the Hague Tribunal. The Riforma, a republican organ, without examining the question, asks if it is opportune to exasperate in such a fashion a nation which showed its good will especially at a time when public opinion in other nations is so hostile to Italy.

The Messaggero states that the French and Italian official communiques regarding the Carthage incident are at bottom really the same, though they differ in form. As to the Manouba, the newspaper puts it on record that the surrender of Turkish officers to the Italian authorities took place after the French Consul at Cagliari received authorization from the French Embassy at Rome. This newspaper denies that there is any connection between the incidents at Cagliari and the visit of Herr von Kiderlen-Wachter.

ter, the German Foreign Secretary to Rome.

The Voce, a radical organ, states that Italy cannot believe an endless number of Turkish surgeons are being sent to Tripoli, and, it adds, has the right to defend herself—a right recognized by custom and international conventions, and she ought to continue to exercise this right with energy.

NINETEEN TO DIE FOR BOMB OUTRAGE

Turkish Court Martial Condemns Men Who Attacked Mosque at Istil.

SALONICA, Monday.—A court martial, which is sitting with closed doors at Istil, about ninety-eight miles north of this city, has condemned to death eight Bulgarians, two Jews, three gypsies and six Turks in connection with the bomb outrage which was perpetrated early in December in the village mosque, causing the death of twelve persons.

Another court martial is sitting at Veles, in Macedonia, for the trial of a large number of prisoners charged with assassinations and other outrages in the surrounding districts.

SEVERAL CHANGES IN TURKISH CABINET

CONSTANTINOPLE, Monday.—It was announced today that Hadji Adil Bey, Secretary General of the Committee of Union and Progress, permanent Under Secretary at the Ministry of the Interior, had accepted the portfolio of Minister of the Interior in the Cabinet, while Talaat Bey, who formerly was Minister of the Interior, has now become Minister of Posts and Telegraphs and David Bey Minister of Public Works.

The Grand Vizier, Said Pasha, said today that he intended to introduce entirely new administrative methods into the government, for which purpose new functionaries were necessary. After this reform had been established, he said, steps would be taken to maintain order and peace in the Balkans. All nationalities would be allowed to develop themselves freely on condition that they did not indulge in plotting for the partition of Turkey.

In regard to the question of Tripoli the Grand Vizier said:—"I do not know that Tripoli has ceased to be part of Turkey. To drive out marauders is one way to cultivating one's garden, and sometimes that is the most noble and morally the most fruitful way."

TURKISH CABLE CUT IN RED SEA BLOCKADE

CONSTANTINOPLE, Monday.—The Turkish cable between Suakin, a sea port of the Egyptian Sudan, on the Red Sea, and Hodeida, in Yemen, Arabia, is interrupted, and it is believed that it has been cut by the Italian warships. The Italians are said to have declared a blockade of some of the ports in the Red Sea, and it is believed that it will be impossible to repair the cable at present.

VOICES HUNGARY'S SYMPATHY FOR ITALY

BUDAPEST, Monday.—Count Albert Apponyi, in the lower House of Parliament today, criticized what he described as "efforts of influential quarters to disturb Austro-Hungarian relations with Italy and to bring about a conflict between the two countries."

Hungary, he said, had the liveliest sympathy for Italy, and the Chamber of Deputies of Hungary would be the rock upon which all attempts to force the monarchy into a policy of fateful adventure would be wrecked. No contention, he asserted, should be given to any attempt to undermine Austria-Hungary's well tried foreign policy.

PRINCESS BETROTHAL DENIED.

Semi-Official Statement on Rumor of Kaiser's Daughter's Engagement.

BERLIN, Monday.—The report of the betrothal of Princess Victoria Luise, only daughter of the Kaiser, to the Grand Duke Adolph Frederick, of Mecklenburg-Strelitz, is semi-officially denied.

STEAMSHIP CRASHES INTO KINGSTON PIER

KINGSTON, Monday.—The dock and government pier here were damaged last night by being rammed by the steamship Fuerst Bismarck of the Hamburg-American line.

The vessel was about to enter the dock when the order was given from the bridge for the engines to run full speed astern. The telegraph was misunderstood and the vessel started full speed ahead. Almost immediately she crashed into and cut through the government pier, afterward smashing the police wharf and the harbor master's launch.

There was a panic among the passengers and the crowd waiting on the pier fled in all directions. No one, however, was injured and a party of tourists belonging to the Illinois Manufacturers' Association suffered no ill effects. The damage is estimated at \$20,000. The Fuerst Bismarck escaped with little damage.

NEW FRUIT SERVICE FROM WEST INDIES

ROTTERDAM, Monday.—Arrangements have been completed by the Hamburg-American line to operate a regular service of fruit steamships between Rotterdam and the West Indies in conjunction with the Columbian Fruit Company. A monthly service is to be started in March and the company hopes eventually to arrange for a weekly service.

marked by tremendous enthusiasm. In a speech Sir Herbert said he was glad to be one of the first to break bread in variety under the new conditions, and he was sure the new régime will be of great value to actors.

MONS. MAETERLINK DENIES MAKING WAGER

[SPECIAL DESPATCH TO THE HERALD VIA COMMERCIAL CABLE COMPANY'S SYSTEM.]

HERALD BUREAU,
No. 139 FLEET STREET,
LONDON, Tuesday.

The Daily Telegraph's Nice correspondent says Mons. Maurice Maeterlink denies he made a wager that he would enter the United States unrecognized by reporters. Mr. Russell, of the Boston Opera Company, some months ago announced that he had made this wager with Mons. Maeterlink.

"Billy" Marchant, the Salford featherweight, who, with "Sid" Smith, the British flyweight champion, is going to America on Wednesday, defeated "Driver" Windebank in London to-night on points in a twenty round contest.

MANCHESTER COTTON MILLS RESUME WORK

MANCHESTER, Monday.—Work has been resumed in the cotton trade with the exception of a few spinning mills which will be run on short time for a week or so.

Margaret Bury, who, owing to her refusal to join the trades union, caused the dispute between the employers and the workers, is doing her customary work at the York mills.

The operators and employers are to observe a truce for a year, during which the question of the employment of non-union labor is to remain in abeyance. In accordance the trades unionists repudiated the truce and made matters so unpleasant for Mr. and Mrs. Riley, the non-unionists whose employment by the mill owners occasioned the strike in the city, that they were obliged to stop work.

MORE SOCIALIST GAINS IN GERMANY

They Win Twenty-Seven More Seats, Giving Them Ninety-Nine in the Reichstag.

BERLIN, Monday.—The Socialists as a result of today's reballoting for members of the Reichstag lack only one of an even one hundred seats. This was the outcome of another remarkable change in the political atmosphere, coupled with thirty-three victories by other left parties, which makes the chances of the "blue and black bloc" or government, of retaining its majority more than doubtful.

The most sensational event of the reballoting was the winning by the Socialists of Cologne. "The German Rome," which has been in the uninterrupted possession of the clericals since the founding of the empire. The Socialists lacked only nine votes of carrying the First Berlin district, where the ministers' votes rejected the radical candidate.

Persia Entitled to Aid of Powers, Says Mr. Shuster

Desire of People for Modern Form of Government Worthy of the Sympathy of the World, Declares Deposed Treasurer General, Who Is in Paris.

[SPECIAL DESPATCH TO THE HERALD VIA COMMERCIAL CABLE COMPANY'S SYSTEM.]

HERALD BUREAU,
No. 49 AVENUE DE L'OPERA,
PARIS, Monday.

Mr. William Morgan Shuster, late Treasurer General of the Persian government, arrived in Paris this morning accompanied by his wife and two daughters. Toward the end of the week Mr. Shuster is going to London. From there he will start for America in time to reach New York about February 20. His idea is to retire from public life after this experience of eight months, and take up his law practice.

"The Persian people," said Mr. Shuster to the HERALD correspondent, "although inexperienced in political matters and totally ignorant of the mechanism of constitutional government, have shown a desire for modern liberal institutions which entitles them to the sympathy and encouragement of the great powers. The strength displayed by the Persians in overcoming the despotism, which is centuries old, was in itself deserving of merit."

Oldest Mohammedan Nation.

"The fact that the oldest Mohammedan nation in the world has followed the example of the most enlightened of the Continental Powers should have entitled Persia, in her internal struggles to expect sympathy instead of the callous, mercenary attitude which has marked the actions of Russia and England toward a nation whose integrity and independence

they voluntarily and publicly proclaimed their intention to preserve forever. I am prevented from making complete comment on the political situation in Persia by the fact that I have agreed not to detail the facts of the Persian situation as I see them until I address the members of the Persian committee in London on next Monday night. Then I shall endeavor to lay before the British public the exact circumstances of the last eight months in Persia and the facts which came under my personal and official notice."

DOMINICAN REVOLT GATHERING FORCE

Fierce Fighting on Haytian Border—Rebels Cut All the Land Telegraph Wires.

[SPECIAL CABLE TO THE HERALD.]

CAPE HAITIEN, Monday.—The revolt in the Republic of Santo Domingo is spreading rapidly. All the telegraph land wires have been cut by the rebels.

General Desiderio Arias, the leader of the revolt, has issued a manifesto, dated at Monte Christi, giving his reasons for the uprising and inviting his countrymen to join his forces.

General Zenon Toribio is fighting fiercely on the Haytian border.

Señor Don Horacio Vasquez, a candidate for the Presidency, who is very popular in Santo Domingo but is now an exile in St. Thomas, D. W. I., is reported on reliable authority to have come to an understanding with Señor Don Federico Velasquez, who has great influence in the southern portion of the Republic, was Finance Minister in the Cabinet of the late President Caeceres and is now in exile, to have a peaceable election for the Presidency. After the revolt is ended it is understood that Señor Vasquez will be nominated for the office of Chief Executive.

GERMANY ACTIVE IN WEST INDIES

[SPECIAL DESPATCH TO THE HERALD VIA COMMERCIAL CABLE COMPANY'S SYSTEM.]

KINGSTON, Jamaica, Monday.—At present there are four or five German cruisers in West Indian waters. They have visited several British colonies.

News from Barbados states that a couple of weeks ago officers and men of the Heitha were seen making a survey of the island and taking soundings at a spot said to have been selected as a coaling station to meet the canal trade. A party from another ship made a survey of a part of Trinidad.

The feeling is that Germany has her eyes on the British West Indies. The ships are carrying on night firing in waters adjacent to British ports. It is considered significant that the war ships arrived in the West Indies simultaneously with the Moroccan crisis.

WASHINGTON UNCONCERNED BY REPORT OF GERMAN NAVAL ACTIVITY.

WASHINGTON, D. C., Monday.—State Department officials said today that the department sees no great significance in German naval activity in West Indian waters. It was reported recently that Germany was seeking a naval base there, but inquiry disclosed the fact that such a report was groundless. Germany asked Cuba for permission to hold target practice in Cuban waters.

GOVERNMENT FORCES CAPTURE GUAYAQUIL

GUAYAQUIL, Monday.—The revolutionary troops under General Pedro Montero, who have had control of Guayaquil for some time, have capitulated to the Quito government troops under General Leonidas Plaza.

Previous to the occupation of the city by General Plaza the citizens today attacked and captured the barracks, which were guarded by a comparatively small detachment of the revolutionists. In the encounter eighty men were killed or wounded, but the citizens were victorious and cheered enthusiastically for General Plaza.

Señor Don Benjamin Rosales has been appointed Governor and General Julio Andrade military commander of Guayaquil.

Two exhibitions by modern American artists and a display of the work of early Spanish masters are of especial interest in "Picture Lane."

AUSTRIAN MINISTER SEEKS LONG LEAVE

Count von Aehrenthal's Illness May Necessitate Surrender of Office Temporarily.

VIENNA, Monday.—The illness of Count von Aehrenthal, the Austro-Hungarian Foreign Minister, has complicated the situation brought about by the campaign which is being waged against him and his foreign policy. It is believed that his anxiety for an early session of the Reichsrath arises from his desire to take a long leave of absence, but that he wishes to give an explanation of his policy to the Deputies before going away on his vacation.

One of the first pictures in Mr. Tarbell's collection is "The New England Interior." There is action and spontaneity in his "Girl with Horse" and every work, with the exception of the formal portraits of women, is vested with a delightful charm.

Examples of the work of Mr. Frederick C. Frieseke have been shown in galleries in this city for several years and their point of view of technique has been gravely considered. He now presents a "one man show" in the Macbeth Galleries, No. 450 Fifth avenue, with seventeen canvases.

Mr. Frieseke has drawn much of his inspiration from the newer phases of art in Paris, where he belongs to the Order of Image Breakers. The most interesting, probably, of these canvases is a large, light toned painting called "Youth." It represents two young women in a boudoir furnished with light colored furniture and with walls in bizarre hangings. One of them is involved in the mysteries of conquering her hair and the other is sitting in a chair in an easy attitude. From the point of view of technique the best canvases are representative of the sixteenth, seventeenth and eighteenth centuries. They revive the acquaintance of the visitor with those masters whose names have become familiar and also introduce him to many less known in the popular sense.

There is "A Beggar," by Sebastian Gomez, slave of the great Murillo, who covertly learned to paint when grinding the colors for his master, and was finally made a free man when his talent was discovered. Other works of interest are those by Escalante, Espinosa, Tristan and Valdes-Leal. There also are a newly imported Zurbaren, "Portrait of Miguel del Pozo," and canvases by Murillo, El Greco and Ribera.

Mr. Shuster when questioned about the present form of control in Persian said, without reserve, that in his opinion the Directorate of Seven Persians totally misrepresented the ambitions and desires of the Persian people, and that this group represented the policy of the foreign mailed fist, however well concealed in a glove of Persian lambskin. As to the possibility of the restoration of the Shah, Mohammed Ali, to which reference recently has been made in many European newspapers, he said in his opinion no greater disaster could befall the Persian people than that which they already had experienced through the long generations of tyranny of the House of Kajar, and which already expressed its dissatisfaction in no uncertain terms by the deportation of the Shah under the auspices of the Russian and British legations at Teheran.

Mr. David Belasco bought several pieces, including a large Japanese temple hanging lamp for \$110. Mr. Daniel G. Reid was also an active buyer throughout the two sessions of the sale. It will be continued to-day.

Mr. Bryan Ends Visit to Miami

Five Jade Cups Bring \$6,700 at Grigsby Sale

\$30,958 Paid at the Opening Sessions for Art Treasures of Mr. Yerkes' Ward.

An unusual occurrence at an auction sale took place when the collection of objects of art belonging to Miss Emille Grigsby, the one time ward of Charles T. Yerkes, was placed on sale in the Anderson Galleries yesterday. During the evening sale two ravenous bidders forced the price of a set of five jade cups and a tray up to \$6,700, when the bidding was stopped by Major E. S. Turner, the head of the Anderson company.

"Ladies and gentlemen," he said, "one of our customers has placed an order with us to buy this set at any price. But I feel that I am justified in stopping the bidding as I feel sure that this person did not expect the price to be so high."

This speech was greeted with applause, and the set went to Mr. M. Mustin, who said that he was an agent buying for a well known collector of New York. Major Turner refused to make public the name of the customer who was contending for the set. In speaking of Mr. Mustin, Major Turner would only say:—"His references are satisfactory."

Mr. Mustin was by far the biggest buyer of the day, and paid the highest prices. The set for which he paid \$6,700 is described in the catalogue as "Five jade cups and tray suitable to go with a set of panels of jade, beautifully carved with landscapes, and the border carved with lacquer. Immediately after this purchase Mr. Mustin bought a pair of jade vases with the original covers and teakwood stands for \$2,600.

The prices throughout the afternoon and evening sales were unusually high. The bids at the afternoon session brought in \$10,441, while the total for the evening was \$20,487. Mr. Mustin also paid the third highest price for a pair of blue and white temple jars and a beaker vase. This lot cost him \$1,400.

Mr. David Belasco bought several pieces, including a large Japanese temple hanging lamp for \$110. Mr. Daniel G. Reid was also an active buyer throughout the two sessions of the sale. It will be continued to-day.

Cuba's Capital Winter Quarters for Americans

Medical Director and Mrs. G. F. Winslow and Mr. and Mrs. Rokeby Among Those in Havana.

[SPECIAL CORRESPONDENCE OF THE HERALD.]

HAVANA, Cuba, Jan. 17, 1912.—Mr. Fred Morris Dearing, who was first secretary of the American Legation here and now is secretary of the Legation in Mexico City, passed through Havana yesterday. He took luncheon with the American Minister and Mrs. Beaufort at the Legation and dined with Mr. Hugh S. Gibson, the first secretary, at the Telegrafo. As it happened to be a busy day at the Legation he conveyed an official note to the Secretary of State, Señor Sangulley, at his residence, combining with business the pleasure of again meeting a friend.

Medical Director George F. Winslow, U. S. N., retired, and Mrs. Winslow, of New Bedford, Mass., were among the arrivals here yesterday from New York by the Ward line.
